ITMB Publishing LTD : Portugal South of Spain 1:600,000 Travel Reference Map before purchasing it in order to gage whether or not it would be worth my time, and all praised Portugal South of Spain 1:600,000 Travel Reference Map:

We are very pleased to re-introduce Portugal using brand new artwork that we feel portrays the country in great detail from top to bottom. This is yet another title for our European series that is gradually replacing the licensed artwork that we used for first editions. One side of the sheet is devoted to Portugal, and the other side to the southern coast of Spain, from Cadiz eastward all through Granada and Jaen provinces to Almeria and north to Cartagena and Alicante, ending at Valencia. As a result, this should be considered as an excellent travel map of the Spanish Riviera, but extending inland to include historic Cordoba, Seville and Albacete. Portugal is often reached by land along the coast via southern Spain, entering the Algarve and driving north. Thus, this map serves two purposes - it provides expanded coverage for an important part of Spain and provides a new map of lovely Portugal.
