**John Davis : Provence: An Accidental Gourmet's Sketchbook** before purchasing it in order to gage whether or not it would be worth my time, and all praised Provence: An Accidental Gourmet's Sketchbook:

1 of 1 people found the following review helpful. old but goodBy C. B. H. DEUTEKOMexcellent atmosphere, local recepees, nice pictures. it`s a good impression of life in the Provence. I like it very much.

A portrait of Provence and its food in words and illustrations. A handful of recipes are included, but this is more than a cookbook, and shows for instance, how to play Boules, and how to cure a hangover with a dish of boiled garlic.
